Notice Number: **BVSS5020**

Date Posted: **October 7, 2004**

Due Date for **5:00 pm on**
Comments: **October 15, 2004**

The Utah Procurement Code provides that a procurement may be made without competition when there is only one source for the required supply or service. Therefore, a "sole source" procurement is justified if there is only one product or service that can reasonably meet the state's need and there is only one vendor who can provide the product or service.

The Division of Purchasing has received a request to make the following sole source procurement.

Requesting Agency: **Utah Department of Environmental Quality**

Product and/or service to be purchased: **Two (2) Complete TEOM-FDMS Systems**

Proposed Sole Source Supplier: **Rupprecht & Patashnick Co. Inc.**

Sole Source Justification:

This analyzer is the only commercially available instrument that corrects the particulate measurement for volatile particulates. No other real time particulate analyzer manufacturer has addressed the loss of volatile particulates in their analyzers, Recommended equipment from EPA.

If for any reason any party does not agree with the proposed sole source procurement, please email **BRENDA VELDEVERE** in the Utah Division of Purchasing at **bveldevere@utah.gov** prior to the "Due Date for Comments" indicated above.
